## WORK EXPERIENCE

### Nissan Campaign for the 2020 Sentra Mar 2020 - May 2020

A campaign project to showcase the 2020 Sentra and its various features.

- Developed using Gatsby and styled-components.
- Assisted in project structure and component design.
- Optimized solution design for building multiple pages in one Gatsby build.
- Effectively and efficiently converted the project from React-static to Gatsby.
- Developed responsive and accessible components using modern JS libraries.

### What Car Should I Buy? Mar 2020 - May 2020

A standalone informational piece sponsored by Nissan.

- Developed using Gatsby and styled-components.
- Developed responsive and accessible components using modern JS libraries.
- Incorporated SEO compliance, and Google Tag Manager implementation.

### Nissan Owner's Portal May 2020 - May 2021

A complete redesign of the [NissanUSA.com](https://www.nissanusa.com) customer account section.

- Sole front-end developer for more than 7 months.
- Developed and refactored over 80% of the components used to improve performance and usability.
- Gained valuable managerial, leadership, and decision making skills.
- Increased site visits by 25%, more than 19,000 visits within a week following the launch.
